Mantachie
Rural Health Care, Inc.

To Whom It May Concern:

Over the past six months, our organization has been working with **GAKK Consulting** to conduct a comprehensive self-audit of our operations at **Mantachie Rural Health Care, INC.** Their team visited our organization on-site for five days, working directly with our practitioners and physicians to improve clinical documentation so that our coding and billing team can more accurately capture the services being provided.

Prior to their onsite visit, **GAKK Consulting** conducted an in-depth review of our charting and billing processes. Through this audit and their subsequent onsite training, they helped identify several opportunities within our electronic health record system (eClinicalWorks) that could improve our billing and coding workflows. Their guidance helped us streamline processes, reduce claim rejections, and increase overall billing efficiency and productivity.

Based on the results of their work and the value they brought to our organization, after approximately three months of working closely together, we made the decision to engage **GAKK Consulting** to assume responsibility for our billing and coding processes for both our medical and dental clinics.

GAKK Consulting has proven to be timely, fair, and extremely thorough in their work. Their team addresses issues directly, provides honest feedback, and focuses on practical solutions that strengthen the organization. They get straight to the root of problems, do not sugarcoat issues, and help organizations become more efficient and compliant in their operations.

I confidently recommend **GAKK Consulting** to any organization seeking an experienced and professional partner in healthcare billing, coding, and operational improvement. We would not hesitate to work with them again in the future.

Sincerely,

James "Butch" Jackson, Jr., CEO
Mantachie Rural Health Care, INC.
